ABOUT GROOMED (Published by Harper Collins)
Using her own story of abuse, family tragedy, and rebellion, Elizabeth Melendez Fisher Good guides readers toward an understanding that grooming is oftentimes subtle, but it's always life-altering. In Groomed, Fisher Good incorporates the language and lessons gained over the past decade working with sex trafficking victims and her work in ministry and counseling before that. She draws out five specific ways that women have been groomed, from physical appearance to spirituality to finances, and shows how those manipulative messages have affected the way we see our worth and how they've oftentimes stifled and limited us. From there Fisher Good offers readers a way to overcome their past, starting with all-important but rarely explored idea of a selah, or a time of rest and reflection, and exploring active ways to forgive and move forward to a new level of freedom.

ABOUT SELAH FREEDOM
100% of proceeds from sales at Freedom Events benefit Selah Freedom, a national nonprofit organization, of which Fisher Good is the Co-Founder and CEO. Their mission is to end sex trafficking and bring freedom to the exploited through their four strong proven programs: Advocacy & Awareness, Prevention, Outreach and Residential. Through Advocacy & Awareness they educate millions annually and unite with legislators to bring justice. Through their Prevention Program, they have created curricula for students K-12th grade and interveners which has proven to educate and empower them on this issue and equip them with practical tools to stay protected. Their Outreach Program partners with and trains law enforcement to reach this demographic on the streets and in the jail system and partners with the FBI, United States Attorney's Office and fellow NPOs as a first point of contact for survivors. Their Residential Program provides all of the resources they need to gain restoration, healing and freedom from sex trafficking, including a personalized education plan, trauma therapy, horse therapy, mentorship and more.
